

SEATTLE FISHERMEN'S MEMORIAL TILE APPLICATION

The Seattle Fishermen's Memorial Committee welcomes applications for engraved tiles to be installed at the Fishermen's Memorial site at Fishermen's Terminal in Seattle. Tiles will be installed once per year prior to the annual Memorial Service conducted on the first Sunday in May. The first tiles will be installed upon completion of the pier renovation in 2004/2005*.

The Committee has the responsibility of approving the names to be placed on the tiles based on the guidelines listed below. Please complete this form and mail it to the Committee by March 1st. Note: Tiles will be installed on a first come first serve basis starting at the center and working outward. The Committee reserves the right to reject any text considered inappropriate. Donations to the Seattle Fishermen's Memorial Fund are used; to maintain the Memorial, for safety training, to provide recognition for fishing industry members and supporters, and for scholarships to family members of those lost at sea whose names qualify for the Memorial.

Types of Tiles and Qualifying Criteria

Memory Tiles-Names that appear on Memory Tiles can be of fishermen or fisherwomen from the greater Seattle area who were lost at sea but did not qualify for the Memorial, or of people from the greater Seattle area (not lost at sea) who are no longer living, were directly associated with the seafood industry, and who have made long term commitments or significant contributions to the seafood industry. Text in addition to a person's name can also be included on a Memory Tile, but must conform to guidelines and requirements set by the Committee. The Memory Tile area is located in front of the Memorial at the north end of the Fishermen's Center.

Support Tiles-Names of individuals, families, or businesses can be engraved on Support Tiles, as well as text. Text must conform to guidelines and requirements set by the Committee. The Support Tile area is located just south of the Memory Tile area.

* exact date depends on Port of Seattle pier renovation schedule. (see reverse side)
